## FLEXING SKI

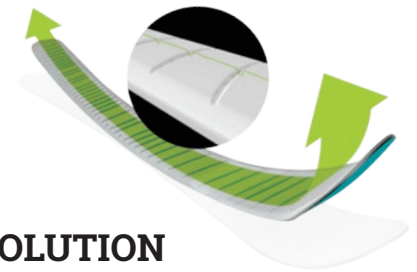

### PROBLEM

- E** Stiff flex = Slow learning
- D** Steifer Flex = Langsames Lernen
- F** Trop de rigidité = Apprentissage plus long
- I** Sci rigido = Apprendimento lento

### IDEA

- E** Extreme flex on short length
- D** Sehr weicher Flex bei kurzer Länge
- F** Extrême souplesse Sur une longueur courte
- I** Flessibilità elevata nelle lunghezze basse

### SOLUTION

#### U-FLEX

- E**
  - 25% softer
  - Easy turning = Simple learning
- D**
  - 25% + weicher
  - Leichtes Drehen = Einfaches Lernen
- F**
  - 25% plus souple
  - Virages facilités= Simple pour apprendre
- I**
  - 25% + flessibile
  - Curva facile = Apprendimento semplice

## FLEXING SKI BOOT

- E** Flexing ski boot
- D** Flexender skischuh
- F** Une chaussure de ski flexible
- I** Flessibilità dello scarpone

- E** Keeping the feet warm
- D** Die füsse bleiben wärmer
- F** Les pieds restent encore plus au chaud
- I** I piedi restano più caldi

- E** Movable sole
- D** Die Sohle passt sich der Biegung
- F** La semelle bouge
- I** La suola si muove

It's my opinion that this technology is only going to increase the fun factor and accelerate the learning for kids all over the world! Watching my 6 year old, Lachlan, move onto the U-flex boots and skis was remarkable. With all that additional flex available to him he was able to access the value of a shaped ski when going slow, and left what we ski instructors call "rail road tracks" in the snow.

**Georgie Bremner**  
Buttermilk School Manager | Aspen Skiing Company

Finally there is a new and perfect working ski and shoe system on the market. The U-Flex system makes skiing much easier and the kids will get success faster than with normal skis. The flexing ski boot is very comfortable and the kids can do nearly everything with them. A system which makes the kids and also the ski teachers happy.

**Andreas Achmüller**  
ski school chief ULLR Ski and Snowboard school

U-Flex is an innovation underlining new findings recently released from a study conducted over a new method of teaching called SkiEdina, which objectively stating the advantages that U-Flex technology provides. SkiEdina was developed by the ski school's team of instructors, and aims to redefine the learning process by teaching parallel turns from the start, instead of focusing on the snowplow. The results clearly showed that U-Flex construction of the skis and boots provided significant enhancement to the learning process. [www.schneeschule.at](http://www.schneeschule.at).

**SkiEdina**

Killington Resort in Killington, Vt., is the winner of the 2015 National Ski Areas Association (NSAA) Conversion Cup Challenge. This annual award recognizes resorts across the country that have developed outstanding programs to convert new skiers and snowboarders into lifelong enthusiasts. Killington managed to execute a new "learn-to" program in last to seasons, the 4-Day Elan Discovery Program, which offered a unique incentive to 900 ski students to complete the four-day series: their own pair of skis, free of charge. The overall results of Killington's conversion efforts are impressive. A total of 98 percent of participants have completed the program so far, and 96 percent say they are likely to continue to ski or ride.

Elan Explore skis as an impact on the industry and our mountain has been absolutely phenomenal. The Explore Technology allows for easier turn engagement and a quicker transition from the wedge to parallel skiing. This season, we have had a faster turnover rate from first day skiers to big carpet, or chairlift riders than before with conventional shaped skis.

**Kyle Steinmetz,**  
Learning Center Director, Mount Sunapee Resort

"The introduction of Elan's Explore rental ski has been game changing for our lesson participants. Not only does the ski have all the efficiencies and design needed for a contemporary rental operation, but it performs beyond expectations in a myriad of conditions. The ski simply makes learning fun and easy."

**Dave Beckwith,**  
Director of Golf and Snow Sports, Killington Resort | Pico Mountain

Our new Elan Explore Adult and Junior rental skis are a huge time saver for the rental staff. The color coded boot and binding system gets our guests in and out the door quickly to enjoy a day of skiing. New skiers and our learning center rave about the skis performance and ease of turning. Bottom line, a happy guest translates into someone who will return and recommend our resort to others!

WITH THE U-GO COLLECTION  
LEARNING AND TEACHING  
ARE MORE FUN THAN EVER!

Introducing a new segment of Elan accessories for the 16/17 season.

The U-GO collection is a group of products that help kids learn to ski and snowboard. These products are very useful, and can make life much easier for parents and instructors when teaching children how to make their first turns.

Not only do these products have teaching features, but they also have many alternative functions such as helping to carry equipment or pick a child up after a fall.

These products are a must for the first visits to the slope.
