NORDIC & ALPINE

COLLECTION 2024 / 2025
SKIS & POLES

POLES

EVOLUTION CLICK STRAP

Adjustable wide wrist strap offers great support in the wrist area and helps you use all your upper body to move forward.

XC COMFORT STRAP

Biathlon style, with an easy adjustable loop.

TEXTILE STRAP

The strong adjustable strap is comfortable and enabling weight distribution around the whole wrist.

CORK GRIP

Ergonomic cork grip is made of natural materials, enabling better warmth generation and an optimal grip.

PE GRIP

Dual material ergonomic grip with soft foam for greater warmth.

ALUMINIUM 7075

Our shafts, made of aircraft-quality Aluminum alloy 7075, are strengthened and tempered, to maximize the quality and improve durability.

3K CARBON FIBER

Carbon fibers give the poles a classic carbon look. The extreme lightness and optimal stiffness of the poles are the characteristics everyone is looking for.

ALUMINIUM 5083

Our shafts Aluminum alloy 5083 are produced in Italy and each tube is checked by our robots and our technicians to ensure the highest possible quality.

CARBIDE TIP

Carbide tip ensures optimal long-term performance.

STEEL TIP

Steel tip ensures durability.

XC TOURING BASKET

Good support and grip on and off the tracks.

XC BC BASKET

Greater impact surface for deep snow, equipped with a durable carbide tip for better grip in icy conditions.

EDGE

STEEL EDGE

The incorporation of durable steel edges in our Nordic backcountry skis goes beyond merely extending their lifespan. These robust steel edges play a pivotal role in providing enhanced control and stability, especially when navigating through challenging icy and ungroomed terrains during your backcountry adventures.

BASE

MULTI GRIP EMBOSSED

Designed to provide perfect grip and control of the kick, especially in soft snow during your backcountry adventures. With strategically placed multiple grip points and an embossed surface, these skis ensure unparalleled traction, allowing you to confidently navigate diverse terrains.

PE BASE

Developed to cater to the specific needs of occasional skiers who prefer a hassle-free experience with little to no maintenance.

CORE

ULTRA LIGHT WOOD CORE

Poplar wood is utilized within the core for enhanced durability in robust models. Additionally, a coating of UL WOOD is applied, ensuring optimal torsional and bending stiffness while minimizing weight.

steel edge

yes

The perfect choice for skier that demand stability, control and edge grip in the ungroomed terrain. Full metal edges provide grip when you need to head downhill or control when you need to traverse across steeper terrain. The camber design aides in flotation and issues easier maneuvering when you need to change course.

Recommended boots: Alaska XP, Alaska, Pioneer PRO, Discoverer Vital, Pioneer Tech, Discoverer Free, Tourer PRO.

/PE base

steel edge

yes

If you plan to balance your time between off trail and sliding on the groomed track, the Discovery 68 is the ideal companion. The patterned base easily ascends while the full metal edge gives you confidence on the downhill. As a flat ski, the interface can be mounted for either telemark or NNN setups.

Recommended boots: Alaska, Alaska XP, Tourer PRO, Discoverer free, Discoverer Vital, Pioneer Tech.

The Control 60 is a perfect for beginners to cross country skiing who want a versatile ski that glides on the groomed tracks in the classic skiing style. The Posi-grip base aides on small climbs ascension while the early rise tip design helps in turning. Premounted with Rottefella's Touring Auto bindings for easy step in and push button release for exiting.

Recommended boots: T30, T30 Eve, T15, T15 Eve.

yes 3/4

Introducing the Control 60E with the 3/4 Length Steel Edge: Experience lightweight agility and versatile performance tailored for off-track exploration. Designed for skiers seeking nimble maneuverability, this option features a steel edge extending 3/4 of the ski's length, striking a balance between weight and control. Perfect for venturing into softer snow and less demanding terrain, it offers an exhilarating experience beyond the groomed tracks. Embrace the freedom of off-trail skiing while enjoying the stability provided by the Posi-grip base, which ensures confident ascents on varied slopes. The innovative early rise tip design enhances responsiveness, making turns effortless in diverse conditions.

Recommended boots: T30, T40, Outlander, Tourer Light, Tourer Free.

Control 64E: an all-in-one solution tailored for beginners stepping into the world of cross-country skiing. Engineered with a steel edge, this ski isn't just confined to groomed tracks; it's your ticket to exploring a variety of terrains with ease. Ideal for navigating easier, less exposed terrain, the Control 64E thrives on hard pack or softer spring snow, offering stability and control wherever your adventure takes you.

Designed with versatility in mind, its Posi-grip base ensures a secure grip during ascents, while the innovative early rise tip design facilitates smooth turns, even in challenging conditions.

Recommended boots: T30, T40, Tourer Light, Tourer Free, Tourer Vital, Tourer PRO.
